PERSONAL PROJECTS AND EXPERIENCE:

Check on [GitHub](#). My highlight projects are:

[Hospitale Co., Ballia, 2018-19:](#)

Designed a WhatsApp bot which caters people interested in buying generic pharmaceuticals. The bot was written in python using selenium and beautiful soup as core libraries and was able to attend up to 10 customers at a time. Total profits from this venture exceed ₹8,000.

[11thing, Ballia, 2020-present:](#)

Co-Founded 11thing, an online sportswear retail. Managed a team of ten engineers to make Web app for clients, sellers and admins using React Js and Express js . Total profits from this venture now exceeds ₹50,000.

EXTRACURRICULARS:

- **Lead Problem Designer @ Celestech 2022 Codathon.**
